Grey	ET/01/07	ET/02/07	ET/03/07	ET/04/07	ET/05/07	ET/15/07
Orange	ET/01/08	ET/02/08	ET/03/08	ET/04/08	ET/05/08	ET/15/08

**Structure:**

**Lower Tube:** Aluminium EN AN 5086

- Length: 605mm
- External diameter: 19mm
- Weight: 94g
- Painted with Epoxy coating
- With 2 holes of 6mm for regulation of height
- Equipped with "stopper" at the high end for noise reduction

**Higher Tube:** Aluminium EN AN 5086

- Length: 765mm
- External diameter: 22mm
- Weight: 134g
- Painted with Epoxy coating
- With 7 holes of 6mm for regulation of height
- Equipped with plastic ring at the low end for noise reduction

**Forearm Support:** Made of polypropylene

- Available in 6 different colors
- Cuff opening: 94mm
- Height between grip and top of support can be adjusted in 4 positions
- Handle can be folded back in vertical position
- Attached with 70mm galvanized screw to aluminium tube

**Base (Ferrule):** Flexible design for maximum contact and adherence

- Equipped inside with an anti-perforation steel ring
- Replaceable

**Support angle:** 24°

**Arm section length:** Min. 220mm, Max. 267mm

**Weight:** 530g

**Max. Weight of user:** 130kg

**Adjustable:** Adjustable to 13 different heights, 25mm apart, from 690-990mm (height of the grip)  
 Equipped with "Safety Clip" for easy and safe adjustment

**Label:**

- MD mark
- Lot number
- EAN number and barre code
- Type of product "Elbow crutch"
- Date of production
- Maximum weight 130kg

Name and address of manufacturer

Name and address of dealer, importer

CE mark engraved in the forearm support

Name manufacturer engraved in the forearm support

"Made in France" engraved in the forearm support

"Max weight" engraved in the forearm support

**Other Indications:**

FDI FRANCE MEDICAL

77 Route de Buatière- Fitolieu

38490 Les Abrets en Dauphiné-France

**Manufacturing site:**

ISO 9999 code : 120306

GMDN code : 31113
